Search Notes

Dear Examiner Fadok:

Please find attached the results of your search for the above-referenced case. The search was conducted in the Business Methods Template databases appropriate for the application.

I have listed *potential* references of interest in the first part of the search results. However, please be sure to scan through the entire report. There may be additional references that you might find useful.

Dialog search results are presented in two formats, Word (.doc) and Acrobat (.pdf).

To navigate this document: use FIND function {Ctrl-F}

~~ will find the beginning of each group of results

^ will find the tagged items

Information on Dialog databases can be found at: <http://library.dialog.com/bluesheets/>

If you have any questions about the search, or need a refocus, please do not hesitate to contact me.

Thank you for using the EIC, and we look forward to your next search.

California "Blue Book" hearing takes on retail wheeling

Burkhart, Lori A

Public Utilities Fortnightly v132n19 pp: 13

Oct 15, 1994

ISSN: 1078-5892 **Journal Code:** PUF

Word Count: 713

Text:

...lower-priced, wholesale electricity. Local governments would establish

"consumer-owned utilities" (COUs) to act as purchasing agents on behalf of

customers within a specific **geographic area**--

buying electricity at wholesale, and purchasing transmission and distribution **services** from the existing **utility** company.

(TURN's plan would remove electric utilities from their role as generators). Local communities, through COUs, would decide the...

**METHOD FOR MANAGING FUEL CONSUMPTION OF AUTOMOBILE BY CASH
REGISTER**

Pub. No.: 09-171592 [JP 9171592 A]

Published: June 30, 1997 (19970630)

Inventor: TAKAO CHIHIO

Applicant: KOFU NIPPON DENKI KK [000000] (A Japanese Company or Corporation), JP (Japan)

Application No.: 07-331315 [JP 95331315]

Filed: December 20, 1995 (19951220)

ABSTRACT

...gas station previously registers an ID number and a customer number in a storage device 3. At the time of **selling** fuel to the customer in the **gas** station, the customer number, the quantity of **gas supply** and a traveling distance from the preceding **gas supply** are registered in a POS 2 and adjusted. Fuel consumption data are calculated from the registered gas supply quantity and the traveling distance data and the calculated data are stored in a corresponding **customer number area** of a storage device 3 for a fixed period together with the gas supply quantity and the traveling distance. These... Di01

English Abstract:

...from the competing suppliers of the rate each is willing to charge to particular end users for estimated quantities of **electric power** or **gas supply** (separate **auctions**). Each **supplier** receives competing bids from the bidding moderator (1) and has the opportunity to adjust its own bids down or up, depending on whether it wants to encourage or discourage additional energy delivery commitments in a particular **geographic area** or to a particular **customer** group. Each supplier's bids can also be changed to reflect each supplier's capacity utilization. Appropriate billing arrangements, including...

Alerting Abstract ... ADVANTAGE - The method enables service customization respective to client's need and interest, based on **client profile** data forwarded to content provided. Hence **locating** of relevant service does not **consumed** more of **client's time** and resources of **telecommunication** system. As client identification data is concealed **from** content **provider**, the possibility of **selling** clients ID to other companies is prevented.

Title: Telecommunications insights: on choosing a long-distance provider

Author(s): Jordan, A.H.

Journal: The Office , vol.102 , no.2 , pp.58

Country of Publication: USA

Publication Date: Aug. 1985

ISSN: 0030-0128

CODEN: OFISAD

Language: English

Subfile(s): D (Information Technology for Business)

INSPEC Update Issue: 1985-021

Copyright: 1985, IEE

Abstract: As a result of the deregulation of the former Bell system, telecom **customers** are being asked to pick the long-distance carrier who will serve them when they dial '1', an **area code** and a phone number. If the bulk of your phone bill is direct-dial, credit-card and/or outbound WATS... ...you tell

which is best for you? The easiest way is to prepare a comprehensive package of information called a **Request For a Telecommunications Service Proposal (RFTSP)** once a year. Forward copies of it to each of the major long-distance carriers, and have them prepare...

00704956 **NYT Sequence Number:** 065792760117
(Complete revision in long distance phone rate structure of AT&T, which could result in lower rates for residential customers and higher costs for business and Govt, has been recommended to FCC by its common carrier bur. Recommendations, if put into effect, would have effect of readjusting AT&T's rates so that each type of long distance service would produce essentially same rate of return to co. Revisions could significantly stimulate competition with AT&T from other telecommunications cos selling private line long distance services. AT&T issues statement strongly critical of recommendation. PSC rejects proposal by AT&T to revise its private line long distance rates in manner that would allow it to be more competitive with cos to which it has lost business in recent yrs. AT&T has made proposal, commonly called hi/lo rate case, to reduce its rates for private line customers in high use areas of nation and increase rates for those in low use areas. Has been collecting hi/lo rates on interim basis since June, '74, subject to refund, and has claimed that without such rates it would lose about \$100-million annually (M).)

Abstract:

...is a skill that can and must be developed in every person who will come in contact with business prospects, **customers** or **clients**. There are 2 major **areas** that must be considered when addressing **telephone sales/service** training: 1. product knowledge, and 2. communication and **selling** skills. Effective training requires preparation, dedication and commitment.

Evaluating network services in the 1990s

Goldstein, Fred; Metzler, Jim
Telecommunications (Americas Edition) v28n11 pp: 47-62
Nov 1994
ISSN: 0278-4831 **Journal Code:** TEC
Word Count: 3514

Text:
...of wide area networking (WAN) services in the 1980s provides a good reference for judging the success of wide area **services** of the 1990s. **Buying** decisions for **telecommunication** products and **services** in the 1980s resulted from "vendor push" rather than "buyer pull." The major decision in wide **area** networking in the 1980s (deploying T1 networks) was not difficult strategically. That, however, has changed.

Telecommunication managers need a different...
